

Just the ticket!

Less Packaging = Less Waste

Did you know that an extra one million tons of waste are generated each week between Thanksgiving and News Year 's Eve? This holiday season, give a gift to the environment by choosing package-free gifts. Instead of all the boxes, paper and bows, give a decorated envelope containing tickets to a sporting event, concert, stage play, movie or

airline. How about a gift certificate for a restaurant, movie, health spa or a special weekend away? By giving an "experience," you can enjoy the holidays knowing that you've reduced holiday waste.
